What is the difference between private and semi-private lessons?
Private lessons are one-on-one, while semi-private lessons are two or three (no more) on one.

How many lessons will it take until my child can swim?
There is no definite time in which your child will learn how to swim. It will depend on the child’s desire, attitude and confidence. Some kids take to the water right away and pick things up very quickly. Others are very hesitant, but with patience will learn the same skills in a slightly longer period of time. The most important thing to remember is to never compare your child’s progress to another child. All children are different and we need to let them learn at their own comfort level.

Can you pair me with a co-participant for semi-private lessons?
No, we do not pair you with a co-participant. You are required to provide your own co-participant.

Do parents get in the water during Preschool classes?
No, parents are required to sit on the bleachers on the pool deck and we ask that you do not interact with class unless permitted by the instructor.

Can I take pictures during classes/lessons?
You may take pictures, however, for the safety of all our participants you may only take pictures of your child. No other child/person should be in the picture. This includes the instructor.
